

Retrofit Ireland Energy Credit Scheme

in association with
Ideal Energy Distribution Ltd
Email: ideal@reil.ie or Phone: 01 801 0140

How much can the Installer Redeem?

Energy Credit Measure	House	Apartment
Ideal Boilers with existing controls	€90	€58
Ideal Boiler with Entry Level Controls	€109	€69
Ideal Boiler with Entry Level Controls with Remote Access	€117	€74
Ideal Boiler with Fully Integrated Controls	€305	€194
Ideal Boiler with Fully Integrated Controls & Remote Access	€333	€210
Ideal Boilers only with existing controls & Ideal Cylinder	€118	€75
Ideal Boiler with Entry Level Controls & Ideal Cylinder	€137	€86
Ideal Boiler with Entry Level Controls, Ideal Cylinder & Remote Access	€145	€91
Ideal Boiler with Fully Integrated Controls and Ideal Cylinder	€333	€211
Ideal Boiler with Fully Integrated Controls & Ideal Cylinder & Remote Access	€361	€227
Groupe Atlantic / Ideal Air to Water Heat Pump with Fully Integrated Controls Upgrade	€990	€630
Groupe Atlantic / Ideal Air to Water Heat Pump with Fully Integrated Control & Remote Access	€1025	€653
Ideal Boiler only with existing controls, Powerflush & Adey Filter	€126	€81
Ideal Boiler with Entry Level Controls, Powerflush & Adey Filter	€145	€92
Ideal Boiler with Entry Level Controls, Powerflush, Adey Filter & Remote Access	€153	€97
Ideal Boiler with Fully Integrated Controls, Powerflush & Adey Filter	€341	€217
Ideal Boiler with Fully Integrated Controls, Powerflush & Adey Filter & Remote Access	€369	€233
Ideal Boiler only with existing controls, Ideal Cylinder, Powerflush & Adey Filter	€154	€98
Ideal Boiler with Entry Level Controls, Ideal Cylinder, Powerflush & Adey Filter	€173	€109
Ideal Boiler with Entry Level Controls, Ideal Cylinder, Powerflush, Adey Filter & Remote Access	€181	€114
Ideal Boiler with Fully Integrated Controls, Ideal Cylinder, Powerflush & Adey Filter	€369	€234
Ideal Boiler with Fully Integrated Controls, Ideal Cylinder, Powerflush & Adey Filter & Remote Access	€397	€250

All rates above are excluding VAT
VAT will be added at applicable rate

Each Measure requirement broken down:

Energy Credit Measure	Requirement
Ideal Boiler only with existing controls	<ol style="list-style-type: none"> 1. Register Boiler on Installer Connect 2. Complete and signed EEOS Homeowner Waiver 3. Copy of existing clock and stat 4. Copy of completed RGI Cert 5. Before and after copy of the Boiler installation 6. Copy of Client invoice
Ideal Boiler and Entry Level Heating Controls	<ol style="list-style-type: none"> 1. Register Boiler on Installer Connect 2. Click relevant additional measures i.e Entry Level Control 3. Complete and signed EEOS Homeowner Waiver 4. Copy of completed RGI Cert 5. Before and after copy of the clock and stat 6. Copy of Client invoice
Ideal Boiler and Full Heating Controls	<ol style="list-style-type: none"> 1. Register Boiler on Installer Connect 2. Click relevant additional measures i.e Fully Integrated Control 3. Complete and signed EEOS Homeowner Waiver 4. Copy of completed RGI Cert 5. Before and after copy of the clock and stat 6. Copy of Client invoice

Groupe Atlantic Heat Pump	<ol style="list-style-type: none"> 1. Complete and signed EEOS Homeowner Waiver 2. Copy of completed RECI Cert 3. Copy of Client invoice

Section F

I confirm that:

- *I have installed the measure(s) identified above in accordance with the product manufacturers instructions in-line with the SEAI Better Energy Homes code of practice (as applicable);
- *I have completed a handover to the homeowner, which included product manuals and verbal instructions on how to use and maintain the product, and all relevant warranties;
- *All information on this form is accurate; and
- *I understand that, as an installer, I have no claim to the energy credits associated with any measures I install.

SEAI Quality Assurance & Disciplinary Procedure

Section 2.2 Performance Categories, Correction Actions & Sanctions

Please attach/enclose a copy of your most recent SEAI evaluation of contractor performance as per example below.

The evaluation of Contractor performance will place individual Contractors in the following four performance categories (identified diagrammatically below):

- GREEN: good performance / low risk
- YELLOW: medium performance / moderate risk
- ORANGE: poor performance / high risk
- RED: very poor performance / very high risk.

Let's get started

How do I Register for the scheme ?

In order to participate in the scheme you will need to do the following without delay:

Apply to register for this scheme with Retrofit Ireland & Submit the mandatory information for your business with your application. (Please fill in the Retrofit Energy Forms out completely)

Before you begin have the following information:

RGI information
Insurance details
Bank details
Tax clearance certificates
SEAI registration number

Once you have assembled the mandatory information required set out in booklet submit your application immediately to ideal@reil.ie Please allow 10 days for application approval.

Next ..

Log onto installerconnect.com

Step 1.

Log in to your installer connect account www.Installerconnect.com and register the boiler warranty and claim your €20.00. When the boiler registration is completed click the partner Schemes portal at the bottom of the screen and go to carbon credit scheme section. Carefully input the measures carried out and press enter to confirm. Your measures have now been saved and stored in your installer connect account.

Step 2.

Submit the completed waiver form for measures carried out (copy in booklet attached) together with a before and after copy of the installation showing clearly the old and new measures to ideal@reil.ie . This will ensure rapid processing of the claims. Please note that the MPRN number for the property must be clearly displayed in the subject bar of the email. This is all that needs to be included in the subject bar. This will ensure that all payments can be made to you in a timely fashion and there are no delays.

Step 3.

Payment will arrive in your bank account within 3 weeks and every 2 weeks thereafter for subsequent claims.

Information Support

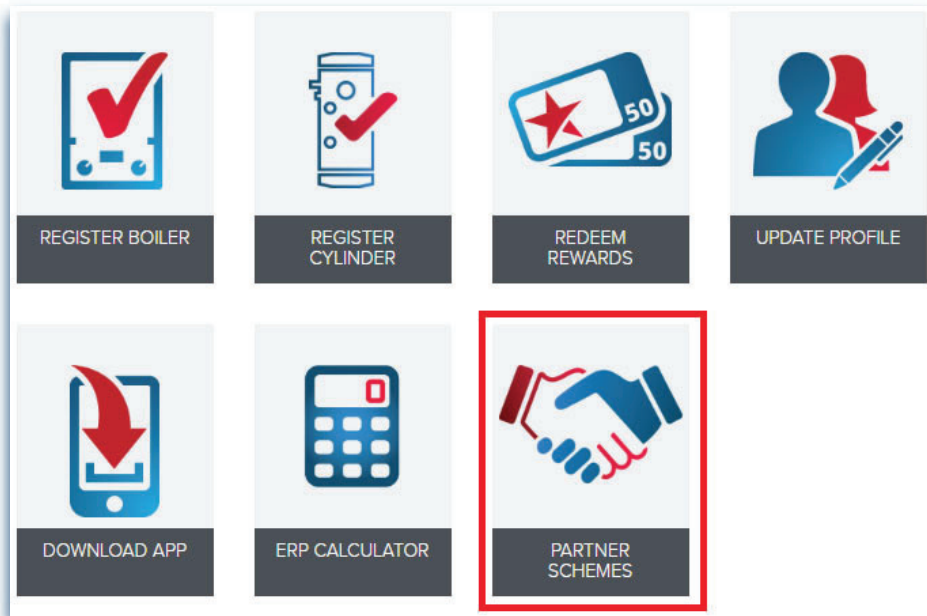

Ideal Energy are running zoom and Microsoft teams tutorials online which last approximately 45 minutes and you can register to take part in one of these programmes by emailing reil@idealenergy.ie.

If you require more information or assistance regarding the scheme please contact a member of the team on ideal@reil.ie.

Installer Connect Information

Carbon Credits Capture

1. Select 'Partner Schemes' from the Members Area in Installer Connect:

2. All registered Boilers through the portal will be visible here – select 'Carbon Credit' next to the relevant registration:

BOILER REGISTRATION DATE	BOILER INSTALLATION DATE	BOILER TYPE	CUSTOMER NAME	CUSTOMER CITY	CARBON CREDIT
05-11-2020	05-11-2020	Logic	Nathan Hopkins	HULL	REGISTER

3. Boiler details etc will be pre-populated following initial registration of the Boiler through the portal – multiple other dropdowns and fields to populate (of which all are non-mandatory):

MAIN DETAILS	
Boiler Serial Number: *	20458900064844
Boiler Model: *	LOGIC COMBI HE30
Contractor Name (company):	(Ic Ideal) Test Account1
Contractor RGI Number (company):	5596563
Installer Name:	Test Account1
Installer Telephone number:	0114 3993950
Installer RGI Number:	
Work Completed Date:	05-11-2020
Grant Job:	No

JOB DETAILS

Select the controls fitted with the High Efficiency Gas Boiler:

Heating Controls Option Entry Level 

> 90% Efficiency Boiler: No 

24h7d Programmer: No 

Room Thermostat: No 

Additional Measures Yes 

Cylinder No 

Powerflush: No 

Magnaclean filter: No 

☐ I confirm that I have a signed customer waiver form for this submission and will return this waiver to the Wholesaler.

JOB DETAILS

Select the controls fitted with the High Efficiency Gas Boiler:

Heating Controls Option Integrated 

90% Efficiency Boiler: No 

24h7d Programmer 2 Zone: No 

Heating Zone 1: No 

Heating Zone 2 and/or TRVs: No 

Hot Water Zone: No 

Cylinder Thermostat: No 

Room Thermostat: No 

Time Controls on Immersion: No 

Additional Measures No 

☐ I confirm that I have a signed customer waiver form for this submission and will return this waiver to the Wholesaler.

What does the Installer have to do?

Complete the Homeowner Waiver ensuring all sections are filled in correctly.

Some important things to note for this:

- Obtain the mprn for each install
- Capture before and after photographs of each area/product being installed
- Household Eircode
- Ideal / Groupe Atlantic Model and Serial Number
- Copy of the Client Invoice
- Copy of Installer Cert as specified in application form (RGI/Reci)
- Capture homeowner signature on Homeowner Waiver Section
- Leave copies of products installed and copy of waiver with homeowner
- Read and understand waiver thoroughly
- Register with Installer Connect to submit application and receive up to €20 extra per boiler as part of the Installer Connect programme.

Paperwork Submission:

To Summarise:

Please submit copy of Homeowner waiver, photographs and certs to ideal@reil.ie. Homeowner waiver can be printed from page 4 of this leaflet.

One application per email to ideal@reil.ie. Please note that the MPRN number for the property must be clearly displayed in the subject bar of each email. This is all that needs to be included in the subject bar. This will ensure that all payments can be made in a timely fashion and without delays.

After you register the warranty on InstallerConnect.com continue to partner schemes to complete 2nd part of energy credit requirement.

Payment

Payment will be made direct to the Installer through Retrofitenergy Ireland Ltd. Retrofitenergy will process submitted paperwork and once all paperwork and work is approved payment will be made within a 2 week timeframe.

What Products are available for redemption?

Please note the list of products that qualify for this Incentive Scheme:

- Ideal Boiler Range
- Ideal Cylinder Range
- Groupe Atlantic Heatpump Range
 - Halo
 - Hive

Retrofit Energy Ireland Ltd Energy Credit Scheme (FAQs)

Q1. What is required for an Ideal Boiler with Existing Controls?

A1. A new Ideal Gas Boiler, and a copy of existing programmer and room stat. You will need to click Entry Level Controls on Installer Connect when registering boiler. By claiming €90 measure it is clear that the new boiler was fitted with existing controls.

Q2. What is required for a Boiler Entry Level Claim?

A2. An Ideal Gas Boiler, 24h 7d programmer and room stat

Q3. What is required for a fully integrated controls claim?

A3. An Ideal Gas Boiler, 24h 7d programmer and room stat, Cylinder stat, Separate heating zone and domestic hot water zone controlled by a motorised valve and stat
5 TRVs OR a third motorised valve controlled by another room thermostat

Q4. What do I get paid?

A4. Measure payments are outlined in the information booklet.

Q5. When, or how often, do I get paid.?

A5. There will be a payment run every 2 weeks. Based on the date of your submission, you may be paid 2 weeks or 4 weeks from when we receive and submit your claim. To avoid any delays please ensure you clearly display the MPRN for the property in the subject bar of the email forwarding the documentation.

Q6. Do I have to be SEAI registered?

A6. Yes, you must be SEAI registered and currently active on the SEAI database. Please view links for further information: <https://www.seai.ie/register-with-seai/contractor/>
<https://www.seai.ie/forms/Contractors-Registration-Form.pdf>

Q7. What standard must the works be completed to?

A7. The works must be completed to the SEAI Better Energy Scheme standards.

Q8. Can the payment figures change?

A8. Yes, the figures can change if SEAI reduces or increase the credits for certain measures. This will then increase or decrease the payment to you.

Q9. Who is checking the quality of works on the Energy Credit Scheme?

A9. Both SEAI and REIL will be carrying out Desktop and On-Site quality audits.

Q10. What houses are eligible for the Energy Credit Scheme?

A10. Dwellings must be built before 2006, they must not have claimed an SEAI grant for the measures previously and the client must be the homeowner of the property. For Heat Pump claims dwellings must be built before 2011.

Q11. What happens if Energy Credits have already been claimed on a job?

A11. If Energy Credits have already been claimed and no energy credits are available, the application will be rejected, and disciplinary procedures will be implemented as set out in REIL Terms & Conditions for this scheme.

Q12. Can a contractor check if energy credits are available against a specific MPRN number?

A12. Yes, The Homeowner can normally confirm if there has been a claim against the MPRN with SEAI. In circumstances where the homeowner is unable to confirm if energy credits have been claimed against the MPRN number they can email ideal@reil.ie and request confirmation. Please note this is for exceptional purposes and the process will take approx 2 working days.

Q13. How do I get registered?

A13. Complete and return your copy of the Contractor Application Pack for registration on this scheme to ideal@reil.ie.

- Q14. Who do I contact if I have any questions on the scheme?**
A14. You can contact REIL by emailing ideal@reil.ie or calling 01-8010140 if you have any further queries.
- Q15. What do I need to claim credits?**
A15. The EEOS Waiver document outlines exactly what is required to claim credits on each measure. This will require the signed waiver from both the homeowner and contractor, a copy of the RGI cert, details of the product make and model, a before & after copy, copy of the client invoice and any other items as noted on the EEOS waiver as applicable to each measures.
- Q16. What are Energy Credits?**
A16. Energy credits are created when an obligated party is involved in the project before the works commence. Ideal energy have partnered with REIL to ensure that all ideal boilers installed to SEAI standards can avail of the appropriate energy credits. The installer through this scheme must demonstrably affect the decision of the homeowner to make energy savings. For example : The installer should encourage the homeowner to upgrade their old boiler to Hi-efficient one and or upgrade the controls to generate energy savings. The energy savings only become credits if claimed when registering the new boilers installation .
- Q17. Can anyone claim Energy Credits?**
A17. No, Energy Credits are only relevant to Energy Suppliers who have signed a voluntary agreement with SEAI.
- Q18. Why can only Energy Suppliers claim Energy Credits?**
A18. Only Energy Suppliers are subject to Energy saving targets set in accordance with Regulation 16 and 17 of S1542/2009.
- Q19. What is the difference between an Energy Credit and a Grant?**
A19. All grants are issued by the government, in this case the SEAI, to help homeowners financially and ensure certain standards are achieved. The grant is normally paid directly to the homeowner. The Energy credits are issued directly to the installer by the energy suppliers as an additional incentive to encourage the homeowner to complete upgrade works.
- Q20. Does the Installer have to pass savings on to the homeowner?**
A20. Yes, you must clearly state on your quotation the value of the Energy Credits and deduct from installed cost
- Q21. Can a homeowner claim an SEAI grant for works carried out in addition to the installer claiming energy credits for the measure?**
A21. Yes, the homeowner can claim the grant directly off SEAI by applying on the SEAI website through the normal process. They must sign the waiver to ensure that they are not claiming credits elsewhere.
- Q22. Do I have to show the energy credits on my invoice?**
A22. Yes. The energy credit payment must be present on your invoice and should be deducted before VAT is added.
- Q23. Do all measures installed have to be identified on the invoice?**
A23. Yes. The measures for which energy credits are being claimed must be stated on the invoice. If the measures are not outlined the application cannot be processed or paid.
- Q24. Why do i need the MPRN number in the subject bar of email correspondence for the credits?**
A24. SEAI will only accept an application with an MPRN. Including this in the subject bar of the email will ensure the application is lodged straight away and there are no delays in payment.
